06. Logo Structure

Ensure the logo is displayed with proper spacing and never altered, stretched, or distorted. Use only the approved color variations and backgrounds to preserve its clarity and impact.

07. Logo Background

Preferred Backgrounds

White Background

The primary and safest option.

Keeps the logo sharp, clean, and professional.

Best for official documents, letterheads, websites, and presentations.

Light Neutral Backgrounds (Off-white, Light Grey #F5F5F5)

Works well when pure white is too stark.

Maintains readability while keeping the brand premium.

Dark Background (Navy Green or Deep Black)

Use the gold logo or white logo on dark backgrounds for high contrast.

Great for luxury settings, signage, and premium presentations.

10. Color Palette

The chosen colors project maturity, elegance, and credibility—core values for a real estate company dealing with trust and investment.

Primary Colors

Dark Green (#142C26)

Represents stability, wealth, and trustworthiness.

It is unique (less common than standard blue) but still feels grounded and corporate.

Suggests growth, balance, and a connection to nature—ideal for real estate.

White (#FFFFFF)

Represents clarity, openness, and honesty.

Provides contrast, ensuring the logo and text stand out across applications.

Secondary Color

Ecru (#CDBF8A)

Adds a sense of luxury, prestige, and aspiration.

Used sparingly, it emphasizes highlights (like accents in the logo, headings, or stationery).

Conveys the premium value clients can expect when working with El-Moore Real Estate
